

Containers bring hope

From Aspirin to X-Ray Machines: More Than 1,000,000 Lbs. Shipped to Date.

First shipment for 2013 is planned for April

For each of the past 25 years we have shipped multiple containers of much-needed supplies and equipment to Haiti.

This economical mode of transportation has served us well and enables us to ship large equipment and huge volumes of smaller items. We consider this element of our operation essential in our ability to share the love of Christ through quality Christian health care to Haiti's suffering.

We are thankful for each material donation, the many volunteers who help sort and pack the containers and those who help pay the ever-increasing cost of transporting, drayage and custom fees. Thank you for coming alongside and helping us meet the needs of our long-term partners serving on Haiti's front line.

Start your monthly pledges now!

Can We Count on You?

Thanks to our valued partners, we are making a difference!

For more than 25 years our ministry has provided quality Christian health care to the people of Haiti. Over these years thousands have enjoyed physical healing, while hundreds came to know Christ as their personal savior. Praise the Lord!

Our deepest gratitude goes out to each prayer partner, donor and volunteer.

May God bless you richly,

Hank Haskins
